**Sourcetek Simple Extraction Kit Series "KSES"**

## Description

The Sourcetec simple extraction kit series "KSES" is specially designed for one or two bay garages, where the operators are concerned about major expense and installation problems. The SES kit comes complete and ready to be installed by a professional or by the operator himself.

This system consists of a wall/ceiling mounting bracket, fan and a special fan connector to which one or two hoses can be hung, and the whole assembly is appended by one or two tail pipe adaptors. A special rubber hose and adaptor are provided on this assembly. A sling is utilized to lift the hose off the ground when not being used. Any parts on this kit can be changed or modified to suit the customer's needs.

## Applications

- For single or dual garages
- All vehicles, vans and light trucks
- Complete kit ready to install
- Easy to use
- No maintenance required

## Options

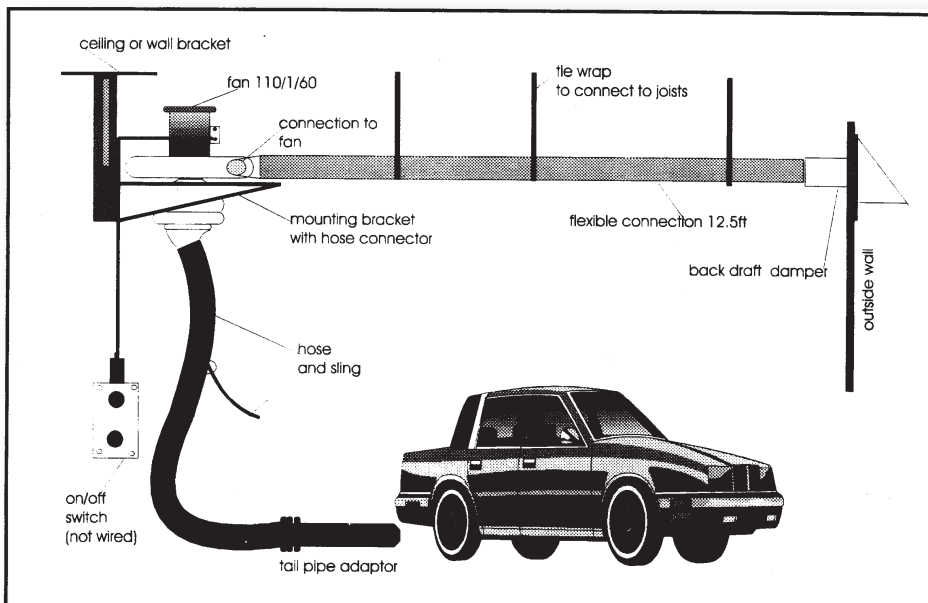

If installation of above fittings is other than standard, check our pamphlet No. 70 for complete selection of fittings and hardware.

- 3ft extension bracket #SESB#3
- 4ft extension bracket #SESB#4
- 5ft extension bracket #SESB#5
