QUICK GUIDELINES FOR SOURCETEC HOSE REELS

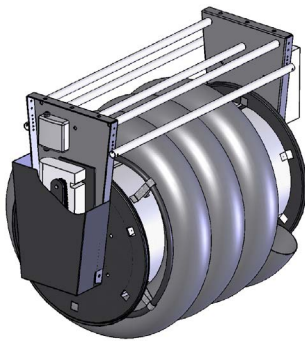

Manual Spring Hose Reel - EHR

- Spring Operated
- Recommended when budget is a concern
- 4", 5", or 6" Hose Diameter / Hose Length up to 33' long
- Various temperatures
- Standard Drum Length is 24"*
- Can accommodate 8" hose**

*Other drum lengths are also available

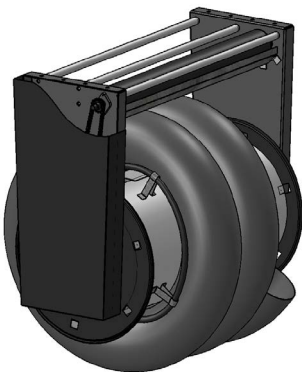

**Some restrictions may apply

Motorized Hose Reel - MCIR

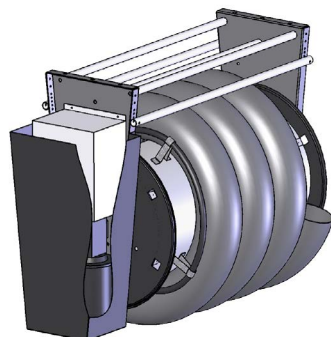

- Equipped with Electrical Compact Motor
- Recommended for Trucks / Vans / Pickup Trucks
- 4", 5", or 6" Hose Diameter / Hose Length up to 33' long
- Drum Length up to 36"
- Wireless remote or wired up/down switch
- Voltages: 120/1/60 or 220/1/60
- Various temperatures
- Can accommodate 8" hose*

*Some restrictions may apply

Motorized Hose Reel - TMER

- Equipped with Electrical Tube Motor
- Recommended for Maintenance Vehicles
- 8", 10", or larger Hose Diameter / Hose Length up to 33' long depending on application
- Drum Length up to 36"
- Wireless remote or wired up/down switch
- Voltage: 115/1/60
- Various temperatures

Motorized Hose Reel - MEHR

- Heavy-Duty Motorized Hose Reel
- Recommended when large diameter and extended hose lengths are required
- Up to 14" Hose Diameter / Hose Length up to 50' long
- Drum Length up to 65"
- Voltages*: L - 110-220/1/60, M - 208/230-460/3/60, N - 575/3/60

*L is the standard voltage

This is only a guideline, other sizes are also available. Consult factory.

EXHAUST HOSE REELS

DESCRIPTION

Cars and trucks going through maintenance and repairs in enclosed areas are often producing fumes and gases while the engines are running. Sourcetec's exhaust hose reels are used for the extraction of these exhaust fumes at the tailpipe. Exhaust hose reels are ideal for service garages and vehicle storage facilities.

All of our exhaust hoses are tested under the toughest conditions to ensure our customers are receiving the finest products available.

FEATURES

- Easy to use and allows for the extraction of hazardous exhaust gases
- Can be mounted under a ceiling, to a wall, and against a column support
- Designed for facilities such as auto repair shops and other areas containing fumes and gases
- Garages are in need of exhaust systems without hindering functionality within the work space and the movement of vehicles going in and out of the facility
- When not used, the hose reel rewinds back up on to the drum and is stored out of the way
