Simple Extraction Kit Series “KSES”

DESCRIPTION

Sourcetec simple extraction kit series “KSES” are used for vehicle exhaust extraction and are available for single or dual applications. These units are designed for garages that are concerned about major expense and installation costs. They come fully assembled and ready to install. Easy to use and no maintenance required.

Please refer to the attached kit details for further information and to help determine which one best suits your application.

These kits may be modified to suit the customer’s needs.
