Mini Arms SERIES "MAS"

Sourcetec mini arms are specially designed to be mounted in areas where space is limited. Our mini arm comes in various lengths and diameters. It is externally supported, and equipped with a 360° swivel rotation.

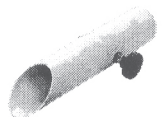

Our standard tube is flexible and smooth to allow greater air flow. Materials are PVC and can withstand temperatures up to 250°F. However, different tubes can be adapted to the arm to accomodate hi-temperature or chemical applications.

Sourcetec MAS Series is ideal for hi and medium vacuum systems.
